Sample Student E

B.Tech Computer Science | Aspiring DevOps Engineer

Summary

Student who enjoys automating builds, deployments and cloud infrastructure.

Skills

Containers: Docker, Kubernetes
Automation: Jenkins, GitHub Actions, CI/CD pipelines, Ansible, Terraform
Cloud: AWS (EC2, S3)
Systems: Linux, Shell Scripting
Tools: Git, GitHub

Projects

Automated Deployment Pipeline - Created a CI/CD pipeline with Jenkins that builds a Docker image and deploys it to Kubernetes on AWS.

Infrastructure as Code - Provisioned EC2 servers with Terraform and configured them with Ansible.

Education

B.Tech in Computer Science, Sample University (expected 2027)
