Sample Student F

B.Tech Computer Science | Aspiring Data Scientist

SKILLS

Python, SQL, Pandas, NumPy, Machine Learning, Scikit-learn, Statistics, Feature Engineering, Matplotlib, Data Visualization, Hypothesis Testing

EDUCATION

B.Tech in Computer Science
Sample University
Expected 2027

CERTIFICATIONS

Statistics Fundamentals
Python Programming Course

SUMMARY

Student who builds models that predict outcomes from data.

PROJECTS

House Price Prediction
Trained regression models and compared them with charts.

Customer Churn Study
Used careful data cleaning and a classification model on data from a SQL database.

EXPERIENCE

Data Science Intern, 2 months
Cleaned data with Pandas and reported findings.
